

## **Articles on Unit testing frameworks for ASP.NET core web api**

In Django, tests come under the class `django.test.TestCase`  
<https://docs.djangoproject.com/en/4.0/topics/testing/overview/>.

In ASP.NET core, the testing can be done through few frameworks, as in:

1. Options of frameworks (link:  
<https://wakeupandcode.com/unit-testing-in-asp-net-core-3-1/#U>)
  - XUnit
  - NUnit
  - MSTest
2. Comparison b/w them : <https://xunit.net/docs/comparisons>
